DETAILED ACTION

Claim Rejections - 35 USC § 102/35 USC § 103

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 12-18 and 29-36 are rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Egli et al. The reference discloses in Figure 1 and col. 3, lines 5-55 a method of coating comprising selecting a hue, selecting a chroma corresponding to the hue, providing a facility with a plurality of paints, providing a blending device, delivering paints to the blending device, blending the paints, delivering the blended paints to an applicator and applying to a substrate. It is the examiner's opinion that the claimed method is at the very least an obvious variation of the reference process. The claimed hue and chroma corresponding to the hue selection would be inherent in the selection of the reference.
